Pre-Conference Workshop
**“Leadership & Future Visioning – How
Do We Position Ourselves for the Future”**

Sunday, August 19th, 2012 – 2pm-5pm

WORKSHOP DESCRIPTION:

We take it for granted that some things just can't happen or won't happen. The opportunities and challenges we face in the future depend greatly on what is happening long term and outside our immediate environment: in society, politics, technology, economy, and environment, etc. We can't predict with any certainty where all of those trends will lead. We can, however, imagine several plausible options for the future and shape our actions today so that we can be effective under a wide variety of future conditions. We can, in other words, plan our actions with foresight, even in times of great uncertainty.

TAACAL will facilitate an interactive workshop on scenario planning.
